

## SW Series

### High Flow Submersible Pumps

#### performance

model no	max flow (l/hr)	max jet (m)
<b>SW15000</b>	15000	5.4
<b>SW18000</b>	20000	6.5
<b>SW20000</b>	25000	6.7

#### outlet connectors

Pumps are supplied with a stepped outlet up to 1.5" OD

#### robust Construction

Housed in robust stainless steel casing the SW range is strike resistant and anti corrosion even when used in salt water. High quality resin on the windings ensures long life and that the unit is safe from electricity leakage.

#### ease of installation

All pumps are supplied with a stepped outlet up to 1.5" OD which easy retrofits to existing pipework. Ideal for applications that require the pump to start and stop automatically as an integral float switch is supplied

#### application ideas

Application ideas include sewage aeration, water drainage, rain water harvesting and flood prevention.

#### voltage

230V 50Hz

#### specification

model no	Power (w)	Weight (Kg)
<b>SW15000</b>	265	4.5
<b>SW18000</b>	325	5.0
<b>SW20000</b>	400	5.5

#### Dimensions

SW15000	200 x 200 x 256 mm
SW18000	200 x 200 x 270 mm
SW20000	200 x 200 x 286 mm

#### SW Series Applications
